

REMARKS

In a telephone interview with the Examiner on March 22, 2005, the Examiner indicated that the previous amendment mailed on December 9, 2004 did not conform to the format requirements for amendments. Specifically, the status of claims 1-6 were not indicated in the Amendment and claims 12 and 25 were indicated as being withdrawn. The claims presented above correct these informalities so the Examiner may enter the Examiner's amendment agreed upon in a previous telephone interview.

Respectfully submitted,

David M. Lockman
